INDEX TO STREETS

HOW TO USE THIS INDEX

(a) Each street name is followed by its Postal District (or, if outside the London Postal Districts, by its Post Town), and then by the reference to its position on the map and the map page number; e.g. Abbess Clo. SW2-2A 94 is in South West 2 Postal District, and is to be found in square 2A on page 94. However, with the introduction of Postal Coding it is not recommended that this index should be used as a means of addressing mail.

(b) A strict alphabetical order is followed in which Avenue, Road, Street, etc. (even though abbreviated) are read as part of the name preceding them; e.g. Abbeydale Rd. appears after Abbey Cres., but before Abbey Est. and Abbeyfield Rd.
